

# Local Report Overview

---

## Local Report Activity

1. Community members have recently brought concerns to your school board about the use of marijuana among local teenagers. Use your data to assess the situation.
  - A. What percent of your students reported using marijuana or hashish at least once in the past 30 days? \_\_\_\_\_ Describe how often students used it:
  - B. What percent of your students reported using marijuana or hashish ever in their lifetime? \_\_\_\_\_ Describe at what age(s) they started using it:
  - C. How do your students' responses in (1) and (2) differ from the state sample? Are these differences statistically significant? Practically significant?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
  - D. What are the attitudes of your students about marijuana? (See, for instance, items 71, 160, 165, 168, 198, 199, 203, 231, 235, 239, or 240).  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_
  - E. Based on your data, would you argue to the board that a targeted program related to marijuana use is or is not appropriate?  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## Local Report Activity continued

2. You want to apply for a grant targeted to improving school safety. Use your data to assess your needs.

A. According to your data, what are your greatest problems around school safety? (See, for instance, items 108–110, 112, 115, 119, 136–140, and 193)

---

---

---

---

B. How do your local results compare to the state averages with regard to school safety?

---

C. Are there differences between your girls and boys with respect to being bullied or feeling safe at school?

---

D. How did your students score on the school-related risk and protective factors? What does this tell you about school safety?

---

---

---

---

Based on your data, how would you support your need for funds to improve school safety?

---
